

PRESS RELEASE

プレスリリース

Hádá Secrets Japan launched a new fragrance in women's bodywashes range on 21st May, 2020. Rome is known for its Giardinis or Gardens and inspired from the scenic beauty and pleasant fragrance of these gardens is their curation, 'Rome Fiori'.

Hádá Secrets is a Japanese brand which makes use of local and fresh ingredients for production. Using chemicals just for preservation purpose and nothing else, this is extremely safe and worth giving a try.

Enlightened from the aroma of Tuscan jasmine and enriched with the benefits of Vitamin C, Vitamin E and aloe vera, 'Rome Fiori' is a must have shower-power. The fragrance of Jasmine combined with its antiseptic properties is a complete package for the skin. Vitamin E and Aloe Vera when used together provides a calming and healing effect on the skin. One simply can't miss out on this product's aroma.

Hádá Secrets Japan is known for their sulphate free bodywashes. Completely avoiding the use of toxins, allergens and artificial colours, their bodywashes are safe and completely natural, our collections are worth a try.

'Hádá Secrets Japan' is a leading skin care brand trademark owned by Kansei Group Co., Ltd, Tokyo, Japan. The brand focusses on the essence and beauty of natural soft, shining and healthy skin.

Our skin care products are made all-natural to benefit all-skin types and are popular amongst local and international consumers.

We source all ingredients and packaging products responsibly and locally. We firmly believe in global environment protection policies and are strictly committed to them.
